Răzvan Albu

Software Engineering and Management BSc Student

About

Resilient student with a passion for solving challenges and building innovative solutions. Creator of Stario Launcher, an app with over 500,000 downloads and 20,000+ monthly active users, with experience delivering impactful, user-focused projects.

Education

2023 — 2026 (Ongoing)
Software Engineering and Management BSc
University of Gothenburg

Solid foundation in software engineering, including OOP, data structures, software architecture, UX, testing, and embedded systems. Gained practical experience through team projects and courses in web development, distributed systems, and HCI.

2019 — 2023
Computer Science High School Degree
Alexandru Odobescu National College

Work Experience

January 2026 — June 2026 (Ongoing)
Amanuens in Human-Robot Interaction
Chalmers, Gothenburg, Sweden

August 2024 — January 2026
Teaching Assistant
University of Gothenburg, Gothenburg, Sweden

Actively contributed to assignment design, grading and teaching in the following Teaching Assistant experiences:

DIT009 — Fundamentals of Programming
DIT044 — Object Oriented Programming
DIT047 — Requirements Engineering
DIT114 — Systems Development

June 2025 — August 2025
Software Engineering Intern — Gaming Frontend
Opera Software, Gothenburg, Sweden

Developed a system-wide internal CMS tool search engine, created the influencer landing page for GameMaker, and played a significant role in the development of the GameMaker GX interactive tutorial. Also made significant contributions to various cloud-based solutions, including GX Store, GameMaker, GX Dev, and GX.me.

Projects

Stario Launcher
Minimal home screen replacement for Android devices — free and open-source. Available on [GitHub](https://github.com) and on the [Google Play Store](https://play.google.com/store/apps/details?id=com.stario.launcher).
